CEO'S Message

2022 Taos Electric Vehicle Expo Saturday September 24, 2022

You are invited to attend the 2022 Taos Electric Vehicle Expo. This event, entering its fifth year, features dozens of electric cars, electric motorcycles and bicycles, speakers and exhibitors of other solar and renewable energy technology. It is sponsored by Renewable Taos, Inc., the non-for-profit, renewable energy advocacy organization in Taos, NM, Kit Carson Electric Cooperative, and other organizations in Taos and surrounding areas.

Your Kit Carson Electric Co-op is a major supporter of this educational event. We expect this year's EV Expo to be well-attended, with all forms of electric transportation (cars, pickups, bicycles, and more) on exhibit outdoors. Inside the library conference room, there will also be several guest speakers on topics related to EVs, renewable energy and energy efficiency.

THIS IS A FREE EVENT OPEN TO THE PUBLIC

WHERE: Taos Public Library, 402 Camino de la Placita, Taos, NM

WHEN: OPEN TO THE PUBLIC from Noon to 4:00 p.m.

For more information or to be an exhibitor, email info@TaosEVExpo.org. Also visit: TaosEVExpo.org

Vehicle Expo

Saturday, Sept. 24, 2022
Taos Public Library
402 Camino de la Placita
Noon to 4:00pm

****SUBJECT TO CHANGE****

RESIDENTIAL PRICE - \$1.99/gal

BOTTLE DOCK PRICE - \$2.15/gal

FIRST FILL (NEW CUSTOMERS) - \$1.99/gal

KCEC is Experiencing Supply Chain Issues

Utilities across the country are being challenged to acquire necessary electrical equipment in a timely fashion, including KCEC. System upgrades may be delayed amid the ongoing problems associated with the global supply chain issues.

With the long lead time and shortage of materials that are used for new construction, new customer connections may be affected and possibly placed on hold. Materials such as transformers, conductors and meters have lead times of 40-52 weeks. General Electric is not taking orders for pad-mount transformers which will put stress on the other manufacturers which will result in longer delivery times for transformers. Material that is currently in inventory is being used for outages and emergency situations for existing customers as needed. New construction is being prioritized on a case-by-case basis.

Board of Trustees

Bobby Ortega	President	Questa	District 2
Cristobal Duran	Vice President	Rodarte	District 4
Manuel Medina	Secretary	Taos	District 1
Bruce Jassman	Treasurer	Angel Fire	District 5
David Torres	Trustee	Arroyo Seco	District 1
Martin Dimas	Trustee	Talpa	District 1
Luisa Valerio Mylet	Trustee	Pot Creek	District 1
Bernie Torres	Trustee	Costilla	District 2
Arturo Rodarte	Trustee	Ojo Caliente	District 3

Winter Weatherization

With the winter months approaching it's not too late to make sure your home is adequately weatherized to save on your utility bills. Here are some quick tips to make your house more efficient: Check insulation, maintain your pipes, and inspect your heating systems

- Clean your gutters. Yes, it's a nasty job, but clogged gutters are a primary reason ice builds up.
- Install — and set — programmable thermostats
- Change ceiling fans to rotate the correct way.
- Check, clean or replace central heating filters.
- Flush your water heater.

The ultimate goal of weatherization is to protect your home from the outside elements in order to maximize energy efficiency. Protecting your home from the weather outside is important for every season, not just the colder ones. If you have rooms that are drafty and cold in the winter, hot in the summer, and generally uneven temperatures throughout your home year-round, it's time to invest in some weatherization home improvements.
